## From the President's Hangar

Jan 2008

By Dave Agee

### Officers for 2008

This is the time of year for us to start thinking about officers for 2008. The constitution calls for the President to take the lead on developing the officers for the next year through nominations normally at the February meeting. As most of you know we will vote for the 2008 officers at the March meeting and the officers will assume their responsibilities immediately after the March meeting.

Your current officers are:

- |                         |   |
|-------------------------|---|
| President:              | Dave Agee   |
| Vice President:         | Matt Finley   |
| Treasurer:              | Dave Swaddling  |
| Secretary:              | Randy Thomas  |
| Steering Committee (3): | Terry Nitsch (3 of 3)<br>Greg Poppel (2 of 3)<br>Chris Walsh (1 of 3) |

**As of this writing, we will need at least candidates for 2 executive positions for 2008, the Vice President and one of the three Steering Committee members.** I am considering running for President again, and will discuss the intentions of our current Treasurer and Secretary before our January meeting.

However, This is a democratic organization. **Anyone interested in running for any position should consider it.** We will vote for 5 positions at the March meeting. After all it is an election, multiple candidates are not only allowed, but also encouraged!

We will discuss this at the January meeting.

### New Years day fun Fly!

Even though the weather didn't really cooperate, we had a nice turnout, 10 to 12 members, at the New Year's day fun fly. Although some of us got the first flight in by flying our CX2's in the clubhouse, it was still a flight!! It was good fun, camaraderie, and Chuck's Beans were GREAT!!

## Presidents Hanger cont....

### **Winter Flying – Electrics**

I have been out a few times this winter and there is more than a few of our club members taking advantage of the mild weather and our Asphalt runway. Personally, I have been out too flying electrics. Electric aircraft are so much nicer than glow or gassers in the winter, no more standing in the cold starting them up, or getting the extreme wind chill behind the prop! Just turn on and go!! I recommend it to all. It seems we are getting more and more larger electrics at the TORKS.

### **Show and Tell**

I suggest we set aside the end of our winter meetings for show and tell starting with this months meeting. I am planning to bring my new electric ZERO. Anyone with any new projects should bring them to share with the membership!

### **Special thanks to Dave May!**

Thanks to Dave May for building and installing the incredible frequency control board for the flying field. It included multiple pins for the 2.4GHz systems. Thanks again Dave!!

See you Sunday at the Police Station January 27<sup>th</sup> at 2:00 pm.
